Accounting and Bookkeeping

1Above Consulting specializes in assisting individuals and small businesses perform various accounting related tasks so that the business owners can concentrate on building the business - and building profits. Our company was started by Jason Cesare, a finance professional of over 15 years of progressive experience in various financial roles for mid to large size companies. His background includes financial positions with a financial services firm, and senior financial roles with various retail and e-Commerce companies.

Here are some of the various accounting services we provide:

- Financial Statement & Custom Reports
- Accounts Payable & managing bills
- Invoicing and Accounts Receivable
- Cash forecasting
- Budgeting
- Bank Account Reconciliations
- Year End Preparation
- Set up of accounting software

We provide full confidentiality of all of your financial information. You will receive fast, reliable and PERSONAL service. Pick up and drop off of information is available

Taxes

Let 1Above Consulting prepare your tax return and you can be rest assured that it is done right. We can handle basic to more complex individual tax returns and can also prepare small business returns. We will keep you informed throughout the year with tax changes and how they may affect your bottom line. You'll receive local, personalized service at an incredible rate.

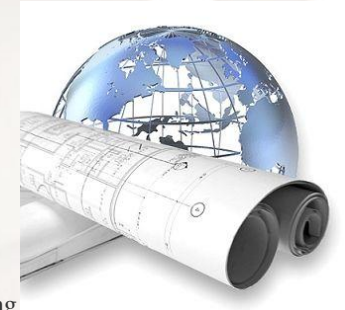

Web & Business Development

Looking to start a business? Have an existing business, but need a web presence? Contact 1Above Consulting and we can review your business goals and help you decide on how to expand your presence to online. We can create and design a website customized specifically to your business and needs.

If you're looking to start selling your product online, or if you have an existing e-Commerce site that has not provided results, contact us today. You may be missing out on sales and profits by either not selling online or your SEO (Search Engine Optimization) and SEM (Search Engine Marketing) are not working efficiently or toward the same end. We can help get you headed in the right direction.

We can also take a look at your business results and trends, your competition, your expense structure, and your financial outlook, and will present to you a summary of findings and recommendations to improve your business and your bottom line.

Computer & Network Services

Need help with setting up your network at home or in the office? Want to set up a secure remote connection to your servers or computers? If you're having issues with your computers and you're not sure who to turn to, call us. Whether computer bugs/virus, issues with programs launching, etc. we're here to help.

1Above Consulting partners with a company that has over 16 years experience in diagnosing computer issues and setting up home and business networks.
